## How it Works

All deer will be individually tagged and kept separate

- Must notify us if CWD tested
- All steaks, roasts & chops will be boneless (we will not cut thru spinal cords or bones)

You're guaranteed your own boneless deer cuts back!

Each deer is tagged with a number which stays with the meat from the time you drop it off to the time you pick it up.

We take great care in our custom deer processing. We thoroughly wash all carcasses before boning, and paper wrap each deer individually.

Our deer processing procedures vary during different times of the year. Generally, all check-ins are done at our retail store. All boneless meat for sausage processing is checked in at the store ALL YEAR !

**We have a refrigerated trailer available for after-hours deer carcass drop off during bow season only. Please follow directions on trailer.**

All sausage meat is frozen the day it arrives, to keep it at its freshest, until we are ready to process it into sausage. We strive to give our customers the very best products as quickly as we can. But, do remember, quality does take time. We assure you that the wait will be well worth it!

- BE SURE TO SPECIFY IF YOU WANT YOUR TRIM KEPT SEPARATE**
- Must have 50 lb. batches per item (34 lbs of trim)
  - 75¢ per lb. charge will be added to your bill
  - All tested deer **MUST** have **TRIM** kept separate until results are provided
